

# OLIO

## SOLVING THE PROBLEM OF FOOD WASTE

OLIO is the world's only neighbour-to-neighbour food sharing app, and our mission is to solve the problem of food waste in the home & local community. We do this by connecting anyone with spare food – which can be households or local businesses – with neighbours living nearby who would like it.

Globally, over one third of all the food we produce gets thrown away, which is worth over \$1 trillion. What few people realise however is that in the developed world, over half of all food waste takes place in the home, with the average UK family throwing away £700 of food each year - collectively adding up to £14bn. OLIO solves this with our award-winning mobile & web apps.

Over the past 6 years OLIO has grown from a local initiative in North London to a global movement. We now have over 5 million users who have together shared more than 26 million portions of food – with food being successfully shared in 59 countries and counting.

## OLIO BENEFITS

- “remote first” flexible working around your home and life commitments
- remote working for up to 6 months of the year outside the UK
